MISSION STATEMENT

Cavalier Logistics aims to provide the highest quality freight forwarding services to our customers, by being proactive and continually improving our level of service. We recognize our customers have a choice for their logistical needs. We will continue to provide that highest level of service by implementing quality systems and integrating our operations to seamlessly meet their logistical requirements. We are committed to continuous improvement and have implemented the ISO 9001-2000 quality system, we became registered in May of 2005. Our quality goal is to manage our business in such a manner that we are proactively monitoring our procedures and operations to insure that we deliver the highest quality logistics services available.

CORPORATE OVERVIEW

Cavalier Logistics is a Certified Veteran Owned Small Business as defined at 38 U.S.C. 101(2). If your business has an initiative to comply with federal regulations, Cavalier is your answer. We are 67% Veteran Owned and Operated. Cavalier’s corporate office is strategically located adjacent to Dulles International Airport in the Mid Atlantic region of the United States.

Since 1986, Cavalier Logistics has been a leading force in the logistics industry, providing a variety of services to many different companies worldwide. Our dedicated, multi-lingual employees constantly strive for perfection in regards to any transportation need. We can help you with one piece at twenty pounds or ten pieces at ten thousand pounds, Cavalier can handle your shipment efficiently and competitively. We can provide the solutions for your logistic needs. ■

- Air Charter Operations
- Crating & Packing
- Warehousing & Distribution
- Carnets
- Letter of Credit (L/C)
- Document Preparation

W

WAREHOUSING, DISTRIBUTION AND PACKAGING SERVICES

Today, many companies are discovering the true benefits of leaving warehousing and distribution to specialists, by "out-sourcing" this facet of their business. Cavalier provides 3rd party logistic services that allow companies to spend their valuable time and resources on their core business.

Cavalier operates a state-of-the-art warehouse, offering 24 hour access, 365 days a year. Storage services are offered on a long or short term basis with dedicated controlled areas. We can also pack, repack and assemble your freight. From fragile goods to temperature sensitive biologicals and dangerous goods, we pack everything according to the appropriate regulations. Packaging options include palletizing, shrink wrapping, banding, and crating to your specifications.

INFORMATION TECHNOLOGY

The last facet of our turn-key logistics support includes providing customized information technology (IT) solutions for inventory control and shipment bookings. Online bookings, inventory pulls and shipment tracking happen with ease when utilizing our customer friendly website. Our website can be easily customized to match your existing operations, for maximum convenience and efficiency.

GOVERNMENT MISSIONS

Cavalier's Government Operations Division is dedicated solely to servicing U.S. Government agencies and their contractors. Our government clients count on us for innovative solutions and Cavalier delivers. We ship government cargo to politically sensitive areas via a combination of land, air and water to provide the most economical and efficient delivery. Cargos can be as simple as building materials or as complex as heavy duty military equipment, like HumVees or armored personnel carriers.

Cavalier also specializes in Private Vending Organizations (PVO) shipments of humanitarian and relief aid shipments world wide, with experience in everything from perishable vaccines to medical supplies and equipment. Cavalier has been proudly serving the U.S. Government and its agencies for twenty years and running.

DEDICATED, COMMITTED, PROFESSIONAL

Founded in 1986 and based in the United States, Cavalier has worked relentlessly to provide the highest level of assistance and expertise to those in need of logistic services, as a full-service transportation, storage, distribution and supply chain management company. Anchored by a reputation of outstanding service, we have established quality control procedures that exceed industry standards so we can provide each customer with the most reliable and dedicated service possible.

Cavalier completes shipments other companies consider impossible. We have the products, services, expertise and validated processes to meet your logistics needs. With offices and agents located on six continents and staffed by over 300 experienced local agents and brokers, we are ready to assist you at a moment's notice. From first available flights to charters and inventory control to total cold chain logistics, Cavalier understands that every customer's needs and shipments are unique. From origin to destination, we make it happen.
